PUPPY AND KITTEN

PetlyTM Plans

PREVENTIVE CARE PLAN OVERVIEW

Puppies and kittens inherit a natural immunity from their mother that protects them from birth until about 6 weeks of age.

After 6 weeks, your pet depends on you to continue that protection until their own immune system is fully developed. A **Preventive Care Plan** is designed to continue that protection by providing all services necessary to carry your young pet through the important first year of life.

Preventive, routine health care is the key to a longer, happier life for your young pet. The puppy and kitten plans offered by **Country Hills Pet Hospital** include recommended preventive care examinations, vaccines and diagnostic tests necessary in the first year of life. If your pet has not been spayed or neutered our plan members received a 5% discount on the spay or neuter surgery package.

For maximum protection, we strongly recommend you enroll your pet in a Petly Plan between 8 weeks and 5 months of age.
