Preventive Care Plans

## Preventive Care Plans overview

Dogs and cats age at a much faster rate than people. For every year that you age, your dog or cat can age from 6 to 8 years.

Your pet's medical and nutritional needs change as their bodies age. **Our Preventive Care Plans** help manage their evolving health care needs by monitoring vital organ function and detecting problems early, before they become life threatening.

### Country Hills Pet Hospital Adult Plans

**Silver** includes a preventive care examination, vaccines, and recommended tests to protect your pet and detect health changes early.

**Platinum** is designed to provide more extensive annual diagnostic screening tests as well as two additional physical examinations. Our goal is to keep your pet healthy and happy throughout their lives.
